This video is the supplemental resource to the Lesson Plan which allows students to learn how to spot the difference between the main website activity and any outside source such as an advertisement.

5. Unblock Websites E-mail Request (Google Document) Holiday Specific E-mail

This copy and paste e-mail will take the stress off you if your school or district's filtering system has blocked any activity. We provide the Holiday Activity website and some of the main domains listed. We also provide how to do unblock websites for the IT Support if they need a refresher.

6. Report an Issue (Link Found on the Holiday Website)

Look for this button to add a website to this collection OR to report an issue only after you have tested the resource at home or on your phone to verify it works outside of school and thus verifies your school is filtering the site themselves. Use the provided "Unblock Websites e-mail Request" Google Document to resolve the issue.
